

Our History

E.H. Teasley & Co., Inc. is a family owned and operated business that has been in operation since 1950. From our beginning of making tents and tarps to our evolution into sign painting, then vinyl lettering and now large format printing on just about any material or substrate, we pride ourselves in great customer service, state-of-the-art equipment, out-of-the-box thinking and quick turn around times.

1991

Early Banner Days

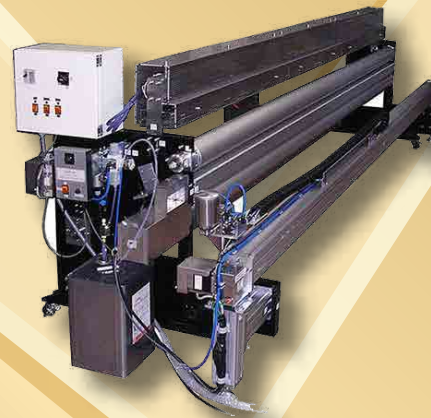

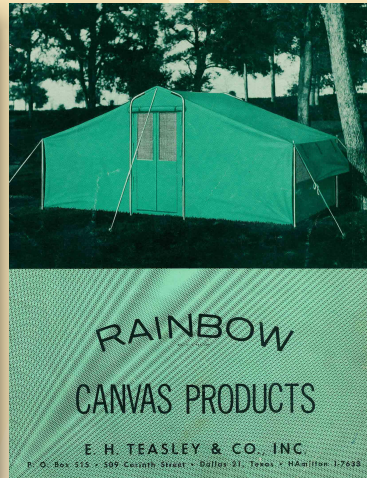

Not only produced tents and tarps, but began blank banner production for sign shops to hand letter.

Started hand painting and screen printing banners.

2014

Purchased/ Merged with Inkjet International. Capabilities increased substantially to offer customers a wider array of products and services.

1995

Purchased our First Digital Printer from Japan. Began digitally printing instead of hand painting and lettering banners. Digital printing reduced turnaround time and increased quality dramatically.

1950

E.H. Teasley Established
Produced tents and tarps
