

PIJ61

3M™ Changeable Window Graphic Film IJ61

No More Static Cling

Uses

- Digitally printed first or second surface retail, POP and other window applications
- Transparent film intended for digital inkjet printing with solvent, latex and UV inks
- Create eye-catching visual dimension and opacity to second surface graphics by using white ink or laminating film IJ61 to 3M™ Scotchcal™ Graphic Film 50-10 (white) or 3M™ Scotchcal™ Graphic Film IJ10-10 (white) to this low-tack adhesive clear film

Key Features

- 3-mil non-cast film with extra rigidity to make flat applications even easier, no need for an overlaminate
- Wet or dry installation methods
- Low tack, changeable adhesive makes for easy, clean removal from glass without the need for heat or chemicals
- Optimized print surface for consistent and reliable image quality

Benefits

- Reverse printing allows mounting on the inside of an outward facing clear substrate
- Reduce the likelihood of damage from vandalism with second surface application
- Excellent degree of clarity for clear viewing
- Increase revenue opportunities by offering striking, clear window graphics
