

Tyvek® soft structure is ideal as in interlining for double sided flags, signs, and banners. Extremely lightweight, tear-resistant and highly water resistant, Tyvek also has excellent drapability and is easily sewn.

Tyvek® 1443R and Metalized Tyvek® 14-S are the lightest weight interlinings that are also excellent light filters. With its metalized coating on one side, Tyvek® 14-S is a very good light block out fabric.
